

AZZURRI STORM

Summer 2026 — Individual Player Reports

Welcome to the Azzurri Storm Premier Team. This document is your personal roadmap for the summer. Every player has received an individual assessment, a summer development plan, and an accountability partner to keep you on track. Read your section, embrace the work, and remember: the players who take no days off are the ones who come back transformed.

Summer Philosophy — Individual Work First

This summer is primarily about individual development. There are no team training sessions to carry you forward — the growth happens at home, at a wall, in your backyard, at the park. Every single day. That means:

- Wall Offs, both feet — hundreds of touches daily, first touch, receiving, passing
- Juggling — set a record today and beat it tomorrow, every day without exception
- Shooting — 50 shots each foot per day for players with shooting as a development focus area
- Moves — perfect 1-3 go-to moves until they are completely automatic
- Strength and conditioning — for players with speed, agility, or fitness as a development focus

Log everything on the Champions Do Extra platform. Your coaches and teammates will follow your progress. Accountability is part of what makes a team great.

Optional: Futsal, 5v5 & 3v3 — Let Us Know!

Small-sided games are one of the best ways to sharpen your decision-making, first touch under pressure, and creativity in tight spaces. There are local Futsal, 5v5, and 3v3 events happening throughout the summer that we plan to participate in — but these are not all pre-committed. We will poll parents before each event to see who is interested and able to attend, and we will enter when we have the numbers to field a team. If you are interested in any of these, let your coach know so we can keep you in the loop.

Date	Location / Event
June 6	Estero — 5v5
June 21	Estero — 5v5
June 27	Ave Maria — 5v5
June 28	Davie Futsal Cup
July 5	Ft. Myers Futsal Cup
July 25	Naples — 5v5

Looking Ahead — Florida Girls Academy League (FGAL)

Next year, Azzurri Storm will be competing in the Florida Girls Academy League (FGAL) — one of the premier development leagues in the state. The FGAL features top clubs from across Florida, meaning we will travel to and compete against teams from:

- Tampa Bay / St. Petersburg area
- Orlando and Central Florida
- Jacksonville and North Florida
- Miami, Fort Lauderdale, and South Florida (Weston, Doral, Pembroke Pines)
- Sarasota, Fort Myers, and the Southwest Florida Gulf Coast

Two marquee events to circle on your calendar:

FGAL Event	Timing	Notes
FGAL Jamboree	December 2026	Full league
FGAL Playoff	April 2027	Top teams advance

Tournament	Dates	Status
SuperCopa Qualifiers	Sept / October 2026 (likely)	TBC
Tampa Bay Super Cup	October 23–25, 2026	Confirmed
FGAL Jamboree	December 2026	TBC
Dimitri Cup	January 17–19, 2027	Est. prior year
Weston Cup	Presidents’ Day Weekend, Feb 2027	Est. prior year
Sarasota Cup (Girls)	April 2027	TBC
FGAL Playoff	April 2027	TBC
Florida Kraze Krush	Spring 2027	TBC

* TBC dates are based on prior-year patterns. Confirm via the club calendar as the season approaches.

Your technical assessment within the team range

How to Interpret Your Assessment

Your score is an individual technical assessment measured against your own potential — not a ranking of your value to this team or your abilities on game day. Every player in this group was selected because of what we see in them. These scores reflect where you are technically heading into the summer and, more importantly, where we want you to be when the summer ends. The goal is not to compare yourself to your teammates but to see your own starting point clearly so you can attack the right areas with purpose. Use this as your roadmap, not a report card.

Superb

Strong

Medium

Development Focus

Avi, I have loved watching you play — there is a real quality to your game that stands out, and I look forward to getting to know your potential even better as the summer rolls forward. Here is where you stand:

First Touch	Medium
Speed / Agility	Strong
Shooting	Strong
Strength / Physicality	Medium
Connecting	Medium
Dribbling	Strong
Tackling	Medium
Fitness	Medium
Weak Foot	Development Focus

Your dribbling, shooting, and pace are all genuine strengths — that combination tells me a lot about the kind of player you are. You are in the middle of this group with real upside. Your weak foot is the priority development focus — Wall Offs, both feet every single day, left and right, until that weaker side feels like a natural extension of your game. With your dribbling ability, a strong weak foot makes you a genuinely difficult player to defend. Perfect 1-3 moves you can execute under pressure and juggle every day to beat your record.
