

AZZURRI STORM

Summer 2026 — Individual Player Reports

Welcome to the Azzurri Storm Premier Team. This document is your personal roadmap for the summer. Every player has received an individual assessment, a summer development plan, and an accountability partner to keep you on track. Read your section, embrace the work, and remember: the players who take no days off are the ones who come back transformed.

Summer Philosophy — Individual Work First

This summer is primarily about individual development. There are no team training sessions to carry you forward — the growth happens at home, at a wall, in your backyard, at the park. Every single day. That means:

- Wall Offs, both feet — hundreds of touches daily, first touch, receiving, passing
- Juggling — set a record today and beat it tomorrow, every day without exception
- Shooting — 50 shots each foot per day for players with shooting as a development focus area
- Moves — perfect 1-3 go-to moves until they are completely automatic
- Strength and conditioning — for players with speed, agility, or fitness as a development focus

Log everything on the Champions Do Extra platform. Your coaches and teammates will follow your progress. Accountability is part of what makes a team great.

Optional: Futsal, 5v5 & 3v3 — Let Us Know!

Small-sided games are one of the best ways to sharpen your decision-making, first touch under pressure, and creativity in tight spaces. There are local Futsal, 5v5, and 3v3 events happening throughout the summer that we plan to participate in — but these are not all pre-committed. We will poll parents before each event to see who is interested and able to attend, and we will enter when we have the numbers to field a team. If you are interested in any of these, let your coach know so we can keep you in the loop.

Date	Location / Event
June 6	Estero — 5v5
June 21	Estero — 5v5
June 27	Ave Maria — 5v5
June 28	Davie Futsal Cup
July 5	Ft. Myers Futsal Cup
July 25	Naples — 5v5

Looking Ahead — Florida Girls Academy League (FGAL)

Next year, Azzurri Storm will be competing in the Florida Girls Academy League (FGAL) — one of the premier development leagues in the state. The FGAL features top clubs from across Florida, meaning we will travel to and compete against teams from:

- Tampa Bay / St. Petersburg area
- Orlando and Central Florida
- Jacksonville and North Florida
- Miami, Fort Lauderdale, and South Florida (Weston, Doral, Pembroke Pines)
- Sarasota, Fort Myers, and the Southwest Florida Gulf Coast

Two marquee events to circle on your calendar:

FGAL Event	Timing	Notes
FGAL Jamboree	December 2026	<i>Full league</i>
FGAL Playoff	April 2027	<i>Top teams advance</i>

How to Interpret Your Assessment

Your score is an individual technical assessment measured against your own potential — not a ranking of your value to this team or your abilities on game day. Every player in this group was selected because of what we see in them. These scores reflect where you are technically heading into the summer and, more importantly, where we want you to be when the summer ends. The goal is not to compare yourself to your teammates but to see your own starting point clearly so you can attack the right areas with purpose. Use this as your roadmap, not a report card.

Ellianah, first of all — congratulations on being selected for the Premier Team! That selection does not happen by accident. Your core abilities and the potential we see in you were clearly recognized, and I am genuinely excited to have you with us this season.

Here is where you stand right now:

First Touch	Development Focus
Speed / Agility	Medium
Shooting	Medium
Strength / Physicality	Superb
Connecting	Development Focus
Dribbling	Medium
Tackling	Medium
Fitness	Development Focus
Weak Foot	Development Focus

Your physicality is genuinely superb — that is a standout in this group and a real foundation to build everything else on. The development focus areas this summer are your first touch, connecting, fitness, and weak foot — and here is the exciting part: every one of those is absolutely fixable with committed daily work. Wall Offs, both feet every single day, hundreds of touches off your weaker foot. Work on your fitness too — get your body fitter and sharper with conditioning work every day. Take zero days off. I have complete confidence that if you put in this work, you will come back a completely transformed player. I am rooting hard for you.

Weak Foot	Development Focus

Your speed and agility are genuinely superb — one of the best in the group and a real weapon. You bring solid shooting and physicality too. The development focus areas are your first touch, dribbling, tackling, and weak foot — all fixable with daily work. Wall Offs, both feet every day, thousands of touches off the weaker foot. Your ball skills under pressure need to catch up with how fast you move. Lock in 1-3 moves you can use at full speed, juggle every day and beat your record. With your athleticism you have every reason to be challenging the very top of this group by the end of summer.

Amelia, I have genuinely enjoyed watching you play — there is something about the way you move the ball that I appreciate, and I look forward to getting to know your game even better as the summer rolls forward. Here is where you stand:

First Touch	Medium
Speed / Agility	Development Focus
Shooting	Superb
Strength / Physicality	Medium
Connecting	Medium
Dribbling	Medium
Tackling	Medium
Fitness	Medium
Weak Foot	Strong

Your shooting is genuinely superb — one of the best in this group and a real weapon on the field. Combined with a strong weak foot, you have a very valuable technical combination. The development priority this summer is your pace and agility. That means conditioning work, sprints, ladder drills, anything that makes you quicker off the mark and harder to hold off. Keep the ball close, keep working in tight spaces. Pick 1-3 moves, get them sharp, juggle every day and beat your record. With your shooting quality and technical ability, closing the speed gap makes you a seriously dangerous player.

Your ability to connect and read the game is genuinely superb — that is your biggest weapon and one of the hardest things to teach. Your shooting, physicality, and fitness are all solid assets that put you firmly in the upper part of this group. There is one thing to obsess over this summer: your weak foot. It is the one area holding back a truly complete player. Wall Offs, both feet every day — hundreds of touches off your weaker side, first touch, pass, shoot. Juggling daily, beat your record. Pick 1-3 moves and make them automatic. You are within reach of the very top of this group — close that gap and you will be right there.

Your first touch, connecting, and weak foot are all development focus areas this summer, and for a player with your physical tools, closing those gaps makes you genuinely dominant. Wall Offs, both feet every day, hundreds of reps off the weaker foot. Work specifically on your connecting — picking the right pass at the right moment at pace. Juggle daily and lock in 1-3 moves. You have earned your spot at the top — now set the standard for everyone else.

Wall Offs, both feet every day — technical and precise. Work on your connecting too — reading the game and playing the right ball at pace. Juggling daily. Then ask yourself: what 1-3 moves make you completely unplayable? You are leading this group — set the standard in how hard you work and pull everyone else toward you.
